

In my former life...as a corporate supporter of many, many different causes, I can say unequivocally that the Bobby's Hospice team is the most responsive and appreciative. That message comes through loud and clear from everyone at Bobby's Hospice. Certainly from the management team, but also from all staff, board members and other volunteers we came into contact with.

We were always warmly welcomed and felt like our contributions were appreciated and really mattered. Hospice goes to great efforts to keep sponsors engaged with newsletters, tours, e-mails, recognition, etc, and helps supporters clearly understand how their contributions are being used and what a difference it makes.

Hospice has a special team and is a great place for corporate and personal support! The care they deliver makes a difference to people we all know in our community. I am proud to call myself a Hospice volunteer and supporter.
