

One of my special memories is from Christmas of 2016. A wonderful woman by the name of Kay was at Bobby's Hospice and she loved Christmas. Her bedroom faced the front yard of Bobby's Hospice. Her son, Rob, made and decorated a very large, beautiful Christmas tree and put it on the front lawn of Bobby's Hospice where she could see it from her window.

I saw this beautiful tree on my way to and from work every day when I walked by and of course when I was in her room cleaning. She also had many angels decorating her room. Kay loved Christmas and her family went out of their way to make her last Christmas the most special one ever. It warmed my heart to see this outpouring of love.

Her son Rob was a contractor and when he noticed an "Under Construction" sign in the space designated for the family kitchen on the patient floor, he decided to take the project on to support Bobby's Hospice. Rob and his company got to work and within five days the ***Kays Way Family Kitchen*** was completed.

This family holds a special memory for me. I was grateful I got to know Kay and her family and their legacy lives on as other families get to enjoy the kitchen Rob built in memory of his mom.
